

Hard Times for **Inspections**

As the world adjusts to reduced social interaction, two particular services affected are loss draft inspections and occupancy inspections. These inspections are typically completed by contracted inspectors and performed in occupied properties. However, due to virus concerns, owners are reluctant to allow inspectors into their homes.

How can these inspections continue without face-to-face interaction?

We saw this obstacle as an opportunity. We have an app that facilitates virtual contact with mortgagors. With Pruvan, you can capture certified photos of the interior and exterior of a home to indicate its condition. Additionally, you can obtain hardship and financial information by having a mobile form.

How is all this done?

Virtually through consumer participation using the Pruvan Direct Mobile app.

Why Use the Pruvan App?

BANKS REQUIRE PHOTO INTEGRITY

Using any photo app isn't good enough. Other photos apps allow photos to be easily manipulated, letting bad players take advantage of the system. Financial institutions require a high level of photo integrity for approval of inspections.

Pruvan was developed with photo integrity at the forefront. Our tamper-proof technology ensures that photos are:

Timestamped

Geocoded

Unaltered

REDUCE THE NEED FOR SKILLED INSPECTORS

Because our app is completely tamper-proof and intuitive for a layperson, everything you need for a legitimate inspection can now be captured by the homeowner.

ELIMINATE THE POSSIBILITY OF CONFLICT OF INTEREST

Pruvan is a software company not an inspection company. Our mission is to provide a higher level of photo integrity to the field order management industry. The security built in the Pruvan app also reduces conflict of interest that might arise from the homeowner capturing photos of the home.

How Pruvan Works as a Virtual Inspection

Using the Pruvan app is simple and can be adjusted to fit whatever unique inspection needs you have. Check out the following steps that outline how easy it is to use.

- ✓ Customize the form occupants fill out to meet your needs.
- ✓ Digital technology captures interior/exterior photos with tamper-proof, timestamped, and geocoded results that ensure the photos were taken at the subject property.
- ✓ Occupant downloads the Pruvan app, captures photos of the house, and completes any form that you attach.
- ✓ Real time results/reducing turnaround times dramatically.
